

ShowerNiche™

Item Name:
ShowerNiche™

Manufacturer:
KBRS, Inc.
8406 Speedway Blvd.
Hardeeville, SC 29927
(866) 912 - 3211
www.KBRSinc.com

Product Description:

The KBRS ShowerNiche™ is a tileable recessed shower niche manufactured from rigid, non-porous PVCORE™. The ShowerNiche™ is 100% waterproof and does not require box framing for support. The ShowerNiche™ mounts flush with the wall's backerboard (no flange to protrude). Once in position, it only requires a few backerboard screws to mount it to a wall stub.

Uses:

- Interior or Exterior
- Industrial, Commercial & Residential

Advantages:

Building a fully waterproof recessed shower niche can be difficult. The KBRS ShowerNiche™ is an easy-to-install, solid alternative to a traditional framed-in recesses shower niche. It's also a real time-saver. No special framing is required. The ShowerNiche™ attaches in seconds to a wall stud using just a few tile backerboard screws. With multiple shapes and sizes available, the ShowerNiche™ allows for design flexibility and creative combinations.

Technical Data:

The ShowerNiche™ is manufactured with PVCORE™. The interior is coated with a seamless layer of ShowerSeal® Liquid Liner waterproofing.

Limitations:

The ShowerNiche™ is not for use other than intended and should not be used without proper installation procedures being followed.

Availability:

KBRS materials are available in both USA and Canada.

ShowerNiche™

Installation Guidelines:

Place ShowerNiche™ within desired area between stud framing. (NOTE: Be sure to allow the front edge of the ShowerNiche™ to protrude from the wall to compensate for the thickness of the backerboard to be installed). Attach ShowerNiche™ to stud frame using a few backerboard screws. Measure and cut tile backerboard to fit around the ShowerNiche™. Install backerboard per manufacture instructions. Apply a generous bead of ShowerSeal® Polyurethane Sealant (or equal) to all seams and tool flush. Waterproof seams using an ANSI 118.10 waterproofing.

Available ShowerNiche® Sizes:

ITEM CODE	ITEM DESCRIPTION
STANDARD SIZES	
RTT-614-N	5" x 13" (Interior) Tileable ShowerNiche™
RTT-1212-N	12.25" x 12.25" (Interior) Tileable ShowerNiche™
