## Product Description:

The KBRS ShowerSeat™ is a tileable wet area substrate that adds comfort and convenience to the shower experience allowing the bather to relax in a seated position while showering.

## Uses:

- Interior or Exterior
- Industrial, Commercial & Residential

## Suitable Substrates:

Any substrate that you would normally build a tile shower on that is level such as; concrete or an approved plywood surface. Deflection of substrate not to exceed L/360 in accordance with ANSI A108.01-2.3.

## Technical Data:

KBRS ShowerSeat™ is made of a 3lb High Density UL® Certified expanded polystyrene Geofoam (Type XV-EPS 60) core. The core is encapsulated in a 100% leak-proof ShowerSeal® Liquid Liner membrane. The average compression strength is 118 psi per ASTM D1621.

## Installation Guidelines:

Dry Fit ShowerSeat™, then measure and trim with hand saw (if required - after trimmed, waterproofing must be reapplied before troweling with thin-set for installation). Apply modified thin-set to seat sides, bottom, floor and walls using 3/8" U-notched trowel. Firmly set ShowerSeat™ in place to ensure full adhesion. Apply ShowerSeal® Polyurethane Sealant and waterproofing membrane components as required.

## Availability:

KBRS materials are available in both USA and Canada.
